TRANSPORT SYSTEMS

for
PALLETS and HEAVIER APPLICATIONS

Easy Systems has a wide variety of transport systems for conveying pallets or similar heavy products or product carriers. The assortment can be divided into motorized or freewheel rollers, chain conveyors, rotating tables, lifting systems, vertical transport,... Each system also offers a wide choice of options such as type of driving mechanism, stoppers, right angle transfer conveyors and implementation in steel, stainless steel and/or aluminum. By the choice of the right materials, the systems are used to transport pallets or products from 150 to 2000 kg per meter.

Due to our experience, our standard solutions and the modular construction, any needed set-up or lay-out can be realized.
